[Visioning:](#)

On November 16, 2009, the Anchorage Board of Education appointed a committee to begin investigation of a visioning process for the Anchorage Independent School District. The attached represents the committee's initial development of ideas during the process. The Anchorage Board of Education is considering the good work of the committee as they prepare for the next step in the process — input from all stakeholders to determine identified areas for growth, scope, depth, sequential process and methods of implementation. The Board embraces your passions and opinions as we carefully consider all information from all stakeholders to develop a progressive, dynamic, educational vision for the school community of Anchorage.
